

FI.DO project: Fighting fake news and DisinfOrmation

16th November 2022 / FI.DO Partnership

The third Living Labs are taking place between November and December 2022

The third and final Living Labs will show the first public presentation of “AUTHENTICITY”, the FI.DO Serious Video game.

The aim of the Living Lab #3 is to test and fine tune the third result of the FI.DO project. The partnership will organize four separate events in all project's countries (Italy, Slovenia, Poland and Greece), where seniors will play for the first time the freshly developed “AUTHENTICITY”.

In addition, the project's staff will carefully gather their comments and feedback which will define the basis of evaluation and improvement of the video game for the completion and release of the final free version.

The Living Labs will take place between November and December 2022.

The leading partner for the development of the FI.DO Serious Video game is QZR, a creative agency with vast experience in the digital education and the second Italian partner of the project.

After the publication of the Training Methodology and of the Manual, “AUTHENTICITY” aims to complement its educational objective by supporting the development of critical skills through a gamification process based on interactive scenarios.

“AUTHENTICITY” is a challenging yet highly engaging video game, which puts the user in a process of assessing information, through everyday occasions and discussions with others. It includes 5 distinct scenarios with different types of manipulation and fake news circulation.

If you would like to participate in the Living Lab #3, please contact directly the organization in your country

FI.DO project: Fighting fake news and DisinfOrmation

About the FI.DO Project

FI.DO (Fighting fake news and DisinfOrmation) is a project developed through the Erasmus+ programme in the field of Adult Education. It aims to enhance seniors' digital skills and critical thinking in relation to their interaction with news, facts and information via digital outlets.

It is part of the Key Action 227 (Cooperation for innovation and the exchange of good practices - Partnerships for Creativity) with reference number 2020-1-IT02-KA227-ADU-095441. The partnership comprises of 7 partner organizations representing 4 countries (Italy, Slovenia, Poland and Greece).
